About Us

Locally owned and family-operated for over 18 years, we take pride in being your one-stop shop for custom storage solutions. From design to manufacturing to installation, we handle every step in-house to ensure exceptional quality and a seamless experience. Our commitment to craftsmanship and personalized service has made us a trusted name in creating spaces that are as functional as they are beautiful.

Vision

To be the leading name in the closet industry by delivering smart, stylish storage solutions that transform everyday spaces. Through craftsmanship, innovation, and purposeful design, we create environments that inspire and simplify life.

Mission

- Innovative design.
- Highest quality and craftsmanship.
- Highest level of customer service.

Custom Closets

Your dream closet starts here. At Concepts By Design, we offer four distinct closet system tiers designed to fit every lifestyle and budget. From simple, functional solutions to fully customized luxury designs, each tier delivers exceptional quality and smart storage options. Whether you're looking for a cost-conscious upgrade or a statement piece that transforms your space, we have the perfect system to meet your needs.

Functional

Our most economical option, the Functional System—also known as a combination system—offers smart storage. Hanging sections are designed to float above the floor, while shelving and drawer areas extend down for added stability and convenience. This versatile system can be custom-fit to any space and any budget, making it the perfect choice for those who want practical organization at an affordable price.

Tailored

A step above Functional, the Tailored System delivers a clean, custom look by bringing all sections down to the floor. This design creates the feel of a true built-in without adding extra features like decorative moldings or specialty accessories. It's ideal for homeowners who want a polished, elevated closet solution that balances style and value.

Boutique

For those who want it all, the Boutique System delivers a truly elevated experience. This tier includes every detail that makes a closet feel luxurious—custom profiles, decorative moldings, integrated lighting, and premium finishes. Boutique is designed for homeowners who value craftsmanship and want their closet to make a statement.

Luxe & Wood

The ultimate in custom closet design, our Luxe & Wood Systems combine all the premium features of the Boutique tier with elevated material selections. Choose from high-end HPL finishes, sleek aluminum accents, or rich wood construction for a truly bespoke look and feel. This tier is designed for those who demand exceptional craftsmanship and the finest materials to create a closet that is as luxurious as it is functional.

The Basics

Closets are not one-size-fits-all—and neither are your options. The images you see here show the exact same layout, styled in different ways to highlight what's possible. Your eye might immediately be drawn to one design, but as you look closer, you'll notice subtle differences—like the presence of crown molding, the choice between slab or profiled doors, or whether the system includes full backs.

These variations are what make custom closet design so exciting. Love the elegant door profiles from our boutique line but could live without the crown molding? We've got you covered. Want the clean simplicity of a modern system with a few upgraded details? That's easy too. With four tiers to choose from, you can mix and match features of each to create a look that feels uniquely yours—while staying within a comfortable budget.
